A Leading Management Consulting Firm

Since our inception in 1992, as a Management Consulting firm across diverse industries, we have offered services to have far reaching impact on client businesses.

Founded on the principle of “concept to commissioning”, we are strategic advisors to our clients during the ideation phase, implementation guides through start-up and a trusted advisor overall. Many of our projects come from repeat clients.

Our team currently comprises 200+ skilled professionals from leading international and Indian engineering and management institutes. Most of our consultants have hands-on industry experience in their fields of specialization and represent a wide variety of functional backgrounds. This enormous knowledge and talent pool enables Technopak to create special customized teams for each project depending upon the client requirements.

With a team of expert professionals we consult with clients across the world. In 2010, we worked with 98 Clients across 110 projects, in 14 countries besides India.

With a team of established domain experts at work, Technopak builds and enhances business capabilities for leading Indian and international companies by offering end-to-end solutions that are unique due to our rich experience, strong industry relationships and a global footprint.

Thought Leadership

India Leisure & Entertainment Trends 2008 is an extensive primary research study conducted using quantitative and qualitative methodologies across a cross section of 5500+ consumers aged 15-55 years from Sec A, B and C households in 16 cities to represent all urban towns with a population of 500,000+ .

This is supplemented with expert interviews with service providers in the Leisure & Entertainment industry and secondary research, including data from Technopak's vast body of knowledge on the subject.

Food Habits of India '08-09 is a comprehensive handbook which helps the reader understand the dynamics in the kitchens of the average Indian household, cooking and eating habits, differences in in-home v/s out-of-home eating practices, choice processes and preferences.

With coverage of over 9,000 consumers across 16 states, this book will help understand the differences between the culinary habits and cuisines of the various regions of India, the drivers for consumption of various kinds of food and their attitudes to food, eating and eating out. These findings will also provide inputs to map the future evolution of the Indian consumer's palate and preferences.

An invaluable resource book for all companies in the food chain, the report is available for INR 120,000 (US \$2500).
